

Re-Gen Robotics recognises that in the provision of our products and services, safeguarding the environment and preventing pollution are embedded in all company decisions, policies, and practices.

Re-Gen Robotics are committed to achieving continuous environmental improvement through setting and reviewing specific environmental objectives and targets in relation to identified environmental risks and opportunities. Re-Gen Robotics strive to implement effective environmental programs to tackle identified risks.

It is the policy of Re-Gen Robotics to protect the local environment through minimising environmental impacts of operations. To achieve our targets, Re-Gen Robotics are committed to:

- Ensuring that all operations of the company are embedded within a culture of environmental protection.
- Providing all employees with relevant emergency spill response training and always upholding environmental best practice.
- Re-Gen Robotics Ltd. is committed to preventing pollution in all aspects of the Company's operation, specifically in releases to air, ground, or water.
- Re-Gen Robotics Ltd., when possible, gives preference to suppliers who demonstrate commitment towards the production of more sustainable product/s and aim towards the production of goods based on the quantification of the environmental impacts arising from material inputs and outputs (Life cycle assessed).

Regen Robotics are committed to work towards the following objectives:

- Ensure full compliance with all relevant environmental legislation, regulations and environmental best practice requirements.
- Encourage open dialogue between all staff, customers, suppliers and contractors regarding Re-Gen Robotics environmental targets and performance.
- Monitor our company's environmental performance through regular audits, to ensure compliance with the requirements of ISO14001 and all other relevant legislation.
- Ensure that our Environmental Policy is communicated to all staff throughout the company.
- This policy will be reviewed on an ongoing basis, to ensure its continuing suitability and effectiveness.
